Industrial design is a process of design applied to products that are to be manufactured through techniques of mass production. Its key characteristic is that design is separated from manufacture: the creative act of determining and defining a product's form and features takes place in advance of the physical act of making a product, which consists purely of repeated, often automated, replication.

What creates new love's sense of uniqueness, intrusive thoughts, intense attention, and raging emotions—our culture or our brain? Anthropologist Helen Fisher argues that lust, attraction, and abiding attachment may follow distinct tracks in our brains, often dislocating the mating process in ways that result in our epidemics of spouse battering, and divorce.

Brains Do It: Lust, Attraction, and Attachment

Threatening event, or probability of occurrence of a potentially damaging phenomenon within a given time period and area. (Source: EM-DAT).
