"You guys are the only people I order from and I appreciate all your help the last year, especially from Holden and Curtis. I went from a newbie last year with a 20 year old kart to now being able to hit podiums on the local levels on a newer and much more competitive CR125; you guys have been instrumental in helping me with my progression and journey.

Parilla Leopard 125cc Kart Racing Engine

The original design for the engine to drive the cam was by a small chain. Parilla later offered an alternative to the chain with a gear drive. These gear drives can be found on some GS, Wildcat, and 175cc motors found in Europe. The performance difference between the two is debatable. Converting a chain drive to a gear drive is possible...

HighCam motor 9 - Moto Parilla

Note Parilla original looks a bit rough in comparison! The material is of far better quality than the original and the rod is a direct replacement requiring no additional machining or alteration to fit a 250 (or 175) crank.

Italian American Motor Engineering (IAME) is an Italian company founded in 1968. It is the parent company of the "Parilla", "Komet" and "Sirio" brand names and is the largest kart engines manufacturer. Its factory is located in the province of Bergamo, Italy, near the city of Milan. The company has won 25 Karting World Championships.

Italian American Motor Engineering - Wikipedia

Parilla was an Italian motorcycle manufacturing company. It was founded in 1946 by Giovanni Parrilla, who dropped an 'R' in his name for the company title. He began by designing, building and racing a 248cc single cylinder, ohc motorcycle, which he modified to take a dohc. After this, he produced a variety of road bikes with; 98cc, 125cc and 250cc engines.
